#### Statement of Need

Advances in stroke care and prevention have led to stroke falling to the 5th leading cause of death in the US. Although this statistic is encouraging, the number of people having strokes in the US is rising with the aging of our population. Strokes also continue to affect a large number of young people. Stroke is a devastating disease that can lead to significant long-term disability. Optimal stroke care emphasizes risk assessment, prevention, management and treatment according to the most current stroke guidelines. Physicians and health care practitioners require updates on the latest diagnostic and therapeutic approaches to provide optimal patient care. This stroke conference will provide attendees with evidence-based information on the following topics: stroke mimics, what they are and how to treat them, when to choose antiplatelet vs. anticoagulation for stroke prevention, community-based strategies to reduce prehospital delays to acute stroke care, identifying patients with posterior circulation stroke, innovations in use of telestroke, neurosurgical treatment of Moyamoya disease, and neuroendovascular treatment for acute ischemic stroke.

#### **Target Audience**

Primary care physicians, neurologists, ER physicians, residents, fellows, interns, medical students, physician assistants, nurse practitioners, registered nurses, and others involved in the care of stroke patients.

#### **Educational Objectives**

It is intended that this NYP Queens CME activity will lead to improved patient care. At the conclusion of this symposium, the participant will be able to:

- Recognize stroke mimics, presentation and treatment.
- Identify appropriate uses of antiplatelet and anticoagulation therapy for prevention and treatment of specific types of ischemic stroke.
- Describe community-based strategies for reducing prehospital delay to acute stroke treatment.
- Identify symptoms in patients presenting with posterior circulation stroke.
- Discuss innovations of telestroke including use on Mobile Stroke Unit and its benefit in treating acute ischemic stroke.
- Describe Moyamoya disease, how to diagnose it and what is the current neurosurgical treatment.
- Specify neuroendovascular treatment of stroke.

## Registration / Information

Ms. Pamela Williams, Director Continuing Medical Education • tel: 718-670-1419 fax: 718-661-7925 • email: pgw9001@nyp.org Register online: www.nypqcme.org

### Agenda

7:30-8:15 am Registration/Continental Breakfast

- 8:30-9:00 am Stroke Overview: Diagnosis, Management and Prevention Gary L. Bernardini, MD, PhD Professor and Chair, Department of Neurology NewYork-Presbyterian Queens Vice-Chair, Department of Neurology Weill Cornell Medical College
- 9:00-9:30 am Stroke Mimics: What They Are and How to Treat Them

Jay Yasen, MD Associate Professor of Clinical Neurology Weill Cornell Medical College Attending Neurologist, NewYork-Presbyterian Queens

9:30-10:00 am Stroke Prevention: When to Use Antiplatelet vs. Anticoagulation Sammy Pishanidar, MD Assistant Professor of Clinical Neurology Weill Cornell Medical Collece

Attending Neurologist, NewYork-Presbyterian Queens

10:00-10:30 am Community-Based Strategies for Reducing Prehospital Delays to Acute Stroke Treatment Olajide A. Williams, MD, MS Associate Professor of Neurology Columbia University Medical Center

Director of Acute Stroke Services, Chief of Staff/Chief Medical Officer of Neurology, Columbia University

10:30-11:00 am **Panel Discussion** 

11:00-12:00 pm Lunch

12:00-12:30 pm ► Posterior Circulation Strokes: A Diagnostic Dilemma Feliks Koyfman, MD Associate Professor of Clinical Neurology

> Weill Cornell Medical College Director of Stroke and Neurovascular Laboratory Attending Neurologist, NewYork-Presbyterian Queens

12:30-1:00 pm Innovations in Telestroke Mike Lerario, MD

Assistant Professor of Clinical Neurology Weill Cornell Medical College Medical Director of the Mobile Stroke Treatment Unit Attending Neurologist, NewYork-Presbyterian Queens

1:00-1:30 pm Moyamoya disease: Natural History and Neurosurgical Treatment Ning Lin, MD Assistant Professor, Neurological Surgery Weill Cornell Medical College

Attending Neurosurgeon, NewYork-Presbyterian Queens

1:30-2:00 pm Endovascular Treatment of Stroke Srikanth Boddu, MSc, MRCS, FRCR, MD Assistant Professor, Neurological Surgery Weill Cornell Medical College Attending Interventional Radiologist NewYork-Presbyterian Queens

#### Accreditation

NewYork-Presbyterian Queens is accredited by the Medical Society of the State of New York to provide continuing medical education for physicians.

NewYork-Presbyterian Queens designates this live activity for a maximum of **4.5** AMA PRA Category 1 Credit(s)<sup>TM</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## **Disclosure Statement**

NewYork-Presbyterian Queens relies upon planners and faculty participants in its CME activities to provide educational information that is objective and free of bias. In this spirit, and in accordance with the guidelines of MSSNY and ACCME, all speakers and planners for CME activities must disclose any relevant financial relationships with commercial interests whose products, devices or services may be discussed in the content of a CME activity that might be perceived as a real or apparent conflict of interest. Any discussion of investigational or unlabeled uses of a product will be identified.

#### **Registration Fees**

\$50	Physicians
\$25	General Registrants
No Fee	Physicians-in-training, NYP Queens Physicians & Staff (copy of NYP Queens ID required with registration)

Fee includes continental breakfast, and course materials.

### Cancellation

Refunds will only be made upon receipt of written notification a minimum of five work days prior to the session.

### Directions

NewYork-Presbyterian Queens is located on the corner of Booth Memorial Avenue and Main Street in Flushing. From the Long Island Expressway: take the Main Street Exit (#23), travel north on Main Street to Booth Memorial Avenue. From the Whitestone Bridge: take the Van Wyck Expressway to the College Point Blvd. Exit; turn left on College Point Blvd. and right on Booth Memorial Avenue. Follow Booth Memorial Avenue to Main Street. From the IRT Flushing Line #7: train to Main Street (last stop), then Q44 bus southbound on Main Street; stops opposite the Hospital. NewYork-Presbyterian Queens is located in a residential area with metered parking. Free lock-and-park spaces are available under the Van Wyck Expressway at College Point Blvd. and 58th Road. Shuttle buses to the Hospital run approximately every 10-15 minutes. Limited paid parking is available in our Visitor Parking Lot located on Booth Memorial Avenue opposite the NewYork-Presbyterian Queens Emergency Room.

## **Special Needs**

NYP Queens is accessible for individuals with disabilities or special needs. Participants with special needs are requested to contact the Office of Continuing Medical Education at 718-670-1419.
